

# Dr.pen® A8S

ELEGANT BLACK

Auto Microneedling Therapy Device

Your Skincare Specialist

## Advantages

### Two-in-one working mode

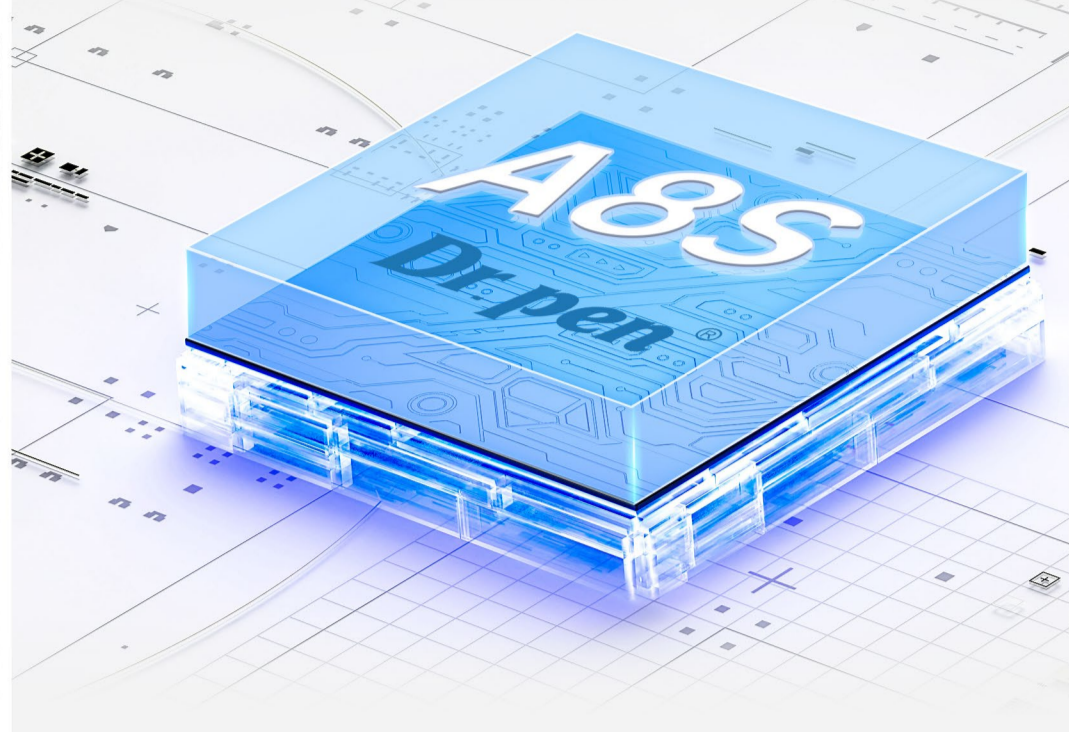

Freely switch wireless and wired operation mode to meet different requirements at the same time.

Easy to use.

### 2D Technology

With 2 individual driving systems, which provide double protection for the core components. It improves the stability and durability of the device greatly.

### Valve needle cartridge

New design needle cartridge. Work efficiently and stably with 3 bayonets lock design. Build-in safety isolation zone ensures the sealing performance. More hygienic and safe.

### Special packaging

Convenient storage. Each accessory can be hold with exclusive place.

### LED Screen Visual Digital Display

1-6 speeds, available for different skin types treatment.

A8S with low battery warning helps users to know the battery remaining power intuitively. Better control the working hours

The number of speed flashes slowly when the battery capacity has 10% left

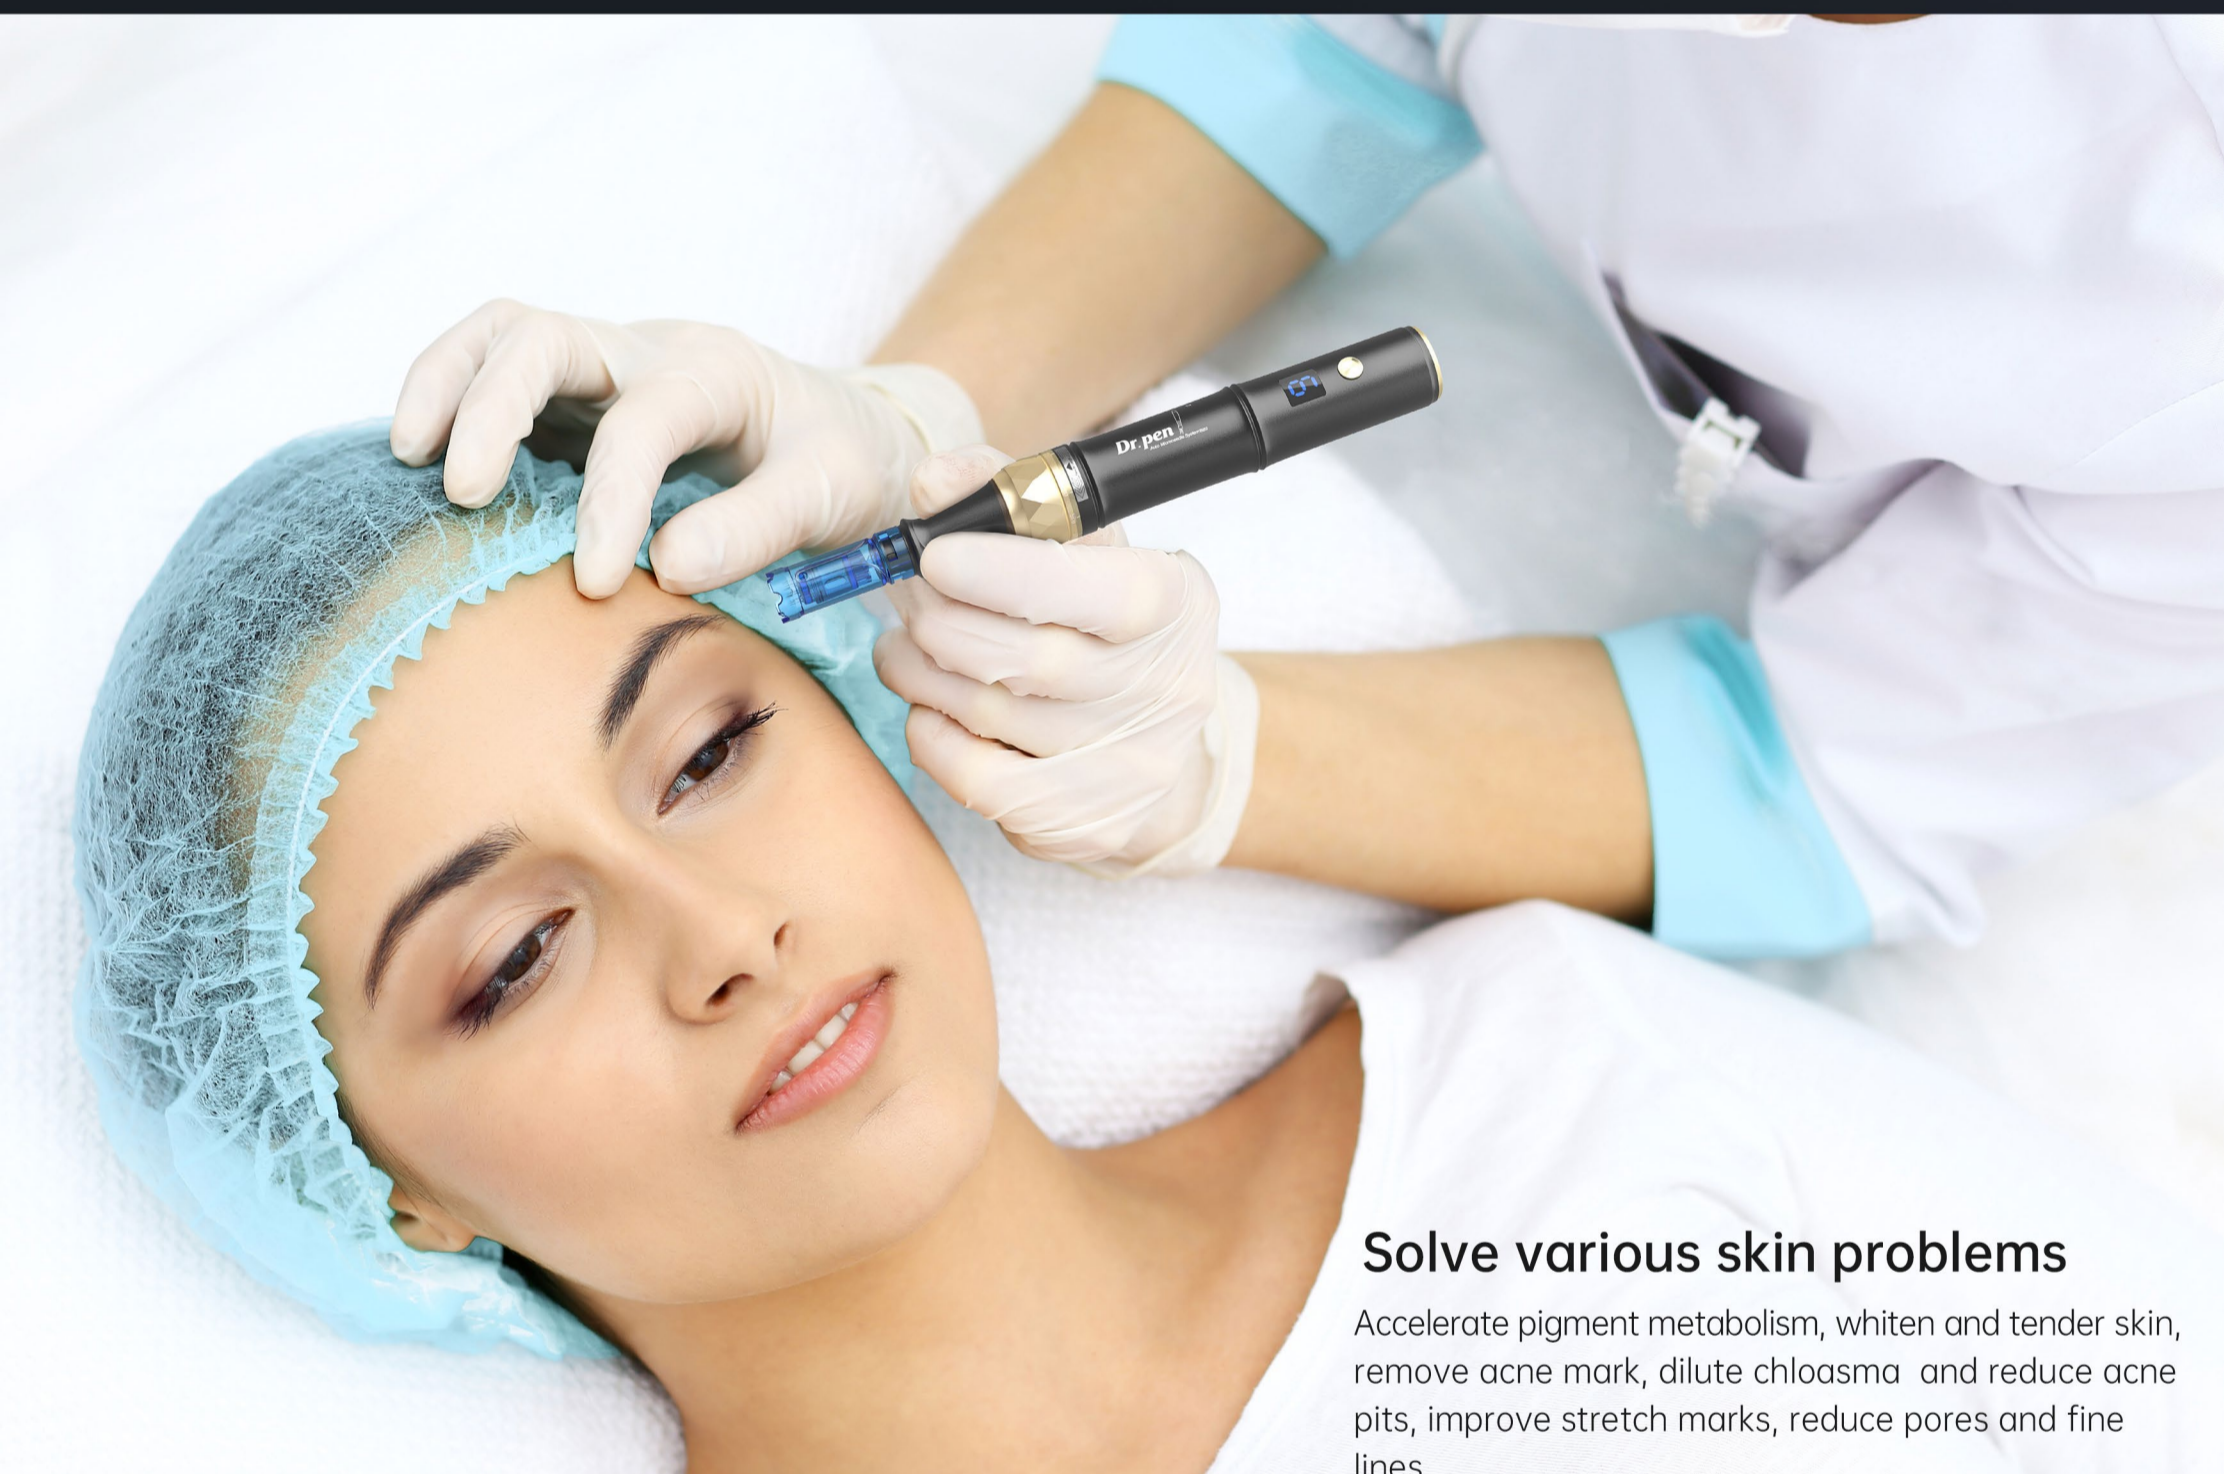

The pen will turn off automatically after 1 minute while the number of speed flashes quickly .

The pen shows "L" when restarting after the low battery automatic shutdown.

Intuitive low battery warning

## Skin Care

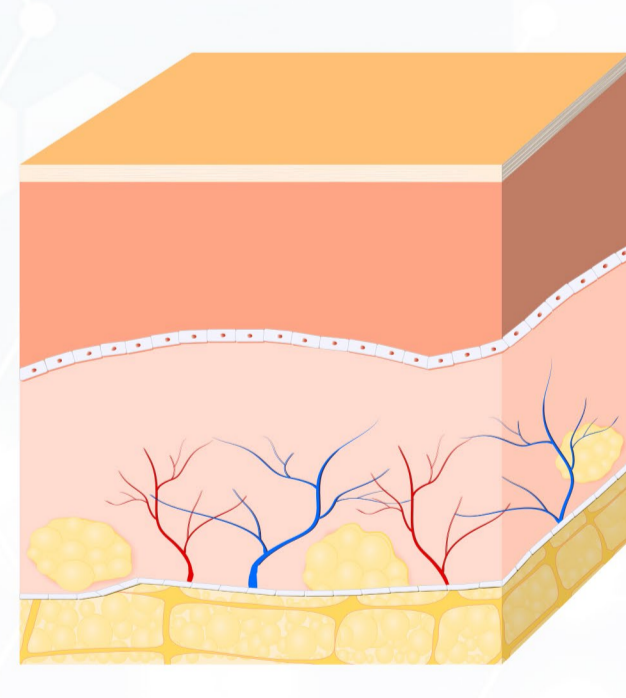

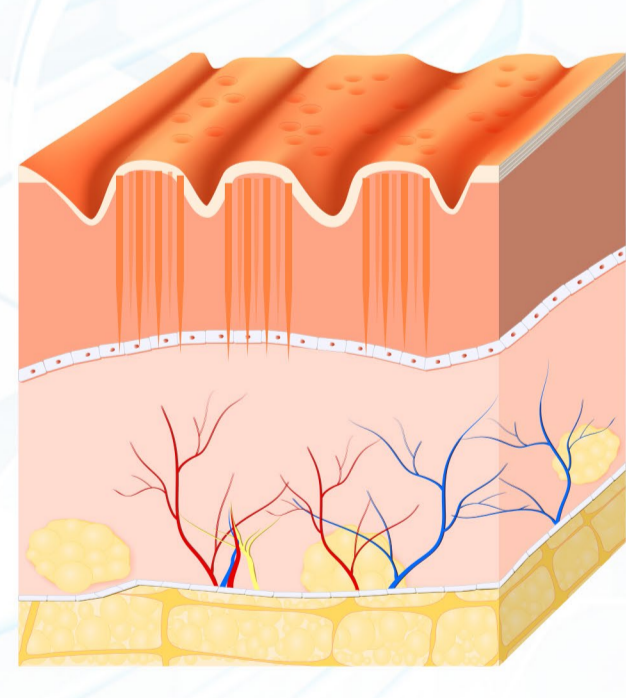

### Solve various skin problems

Accelerate pigment metabolism, whiten and tender skin, remove acne mark, dilute chloasma and reduce acne pits, improve stretch marks, reduce pores and fine lines.

### Promote skin regeneration

Microneedling aims to create a controlled injury just beneath the skin's surface, thereby inducing the body to respond by producing more collagen in the treated area.

The micro-needles reach beyond the epidermis into the dermis, causing pin-point bleeding and triggering the body's spontaneous healing response.

New organized collagen & elastin forms, bolstering from within, while the epidermis becomes thicker and more supple, each time a treatment is performed.

## Product Parameters

● Specification			
Brand	Dr.pen	Model	A8S
Power Model	Wired & Wireless	Battery capacity	380mAh
Speed Level	6 Speeds	Adapter	US/EU/UK/AU/KR
Needle Adjustment Range	0-2.5mm	G.W.	16.9*12.3*5.6 cm/1 pc/ 373 g
Handle Material	Metal	1 carton	36*27*33 cm/20 pcs/8 kg
Available Cartridges	12 Pins 18 Pins 24 Pins 36 Pins 42 Pins Nano-S Nano-R	Packing List	① Box    ② Cable    ③ Adapter
